<p>The last week of the training (September 11-15) should be a time of recovery and rest. Use this week to stay loose with proper warm-ups, mobility drills and stretching. Light exercises and easy jog okay through Wednesday. Hydrate well Thursday and Friday. You can introduce additional carbohydrates (pasta and light starches not sugars) in preparation for Saturday. This will provide some extra energy for the event.</p> <p><i>Before beginning any new exercise regimen, especially if you are not used to regular exercise, it is important to consult with your primary care physician.</i></p>						
<p>Warm Up Drills can be:</p> <ul style="list-style-type: none"> -Walking/jogging in place w/ arms moving -Skipping (upper body inclusion) -Step-ups/downs (upper body inclusion) -Walking crunches -Toy soldiers -Jumping jacks (moderate speed) 			<p>Mobility Drills can be:</p> <ul style="list-style-type: none"> - Ankle Rotations / Knee Rotations - Hip Rotations - Wrist Flexes / Shoulder Rotations - Neck Flex - High Knee Drill - Glute Hugs (figure 4's) - Butt Kick Drill - Knee Hugs - Hip Flexors - Spiderman Crawl
