INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and
Members of the Town Council
The Town of Clover
Clover, South Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Clover, South Carolina (the *Town*) as of and for the year ended June 30, 2010, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Clover's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Clover, South Carolina, as of June 30, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 5, 2010, on our consideration of the Town of Clover, South Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 10 and 40 through 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Clover's financial statements as a whole. The combining and individual nonmajor fund financial statements, and other supplementary information, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The other supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

The prior year summarized comparative information has been derived from the Town's 2009 financial statements and, in our report dated October 14, 2009, we expressed unqualified opinions on the respective financial statements of the governmental activities, the business-type activities, and the aggregate remaining fund information.

Faulkner and Thompson, P.A.

TOWN OF CLOVER, SOUTH CAROLINA

Management's Discussion and Analysis (MD&A)

Our discussion and analysis of the Town of Clover's financial performance provides an overview of the Town's financial activities for the fiscal year ending June 30, 2010. Please review this in conjunction with the Town's financial statements.

REVIEWING THE ANNUAL REPORT

The annual report covers multiple financial statements. The Statement of Net Assets and the Statement of Activities supply data about the activities of the Town as a whole and provide thorough information regarding the Town's finances. For government activities, these statements provide long-term and short-term information about the Town's overall status. Financial reporting is similar to that found in the private sector with its basis in full accrual accounting. Fund financial statements show the Town's operations in more detail than government-wide statements, as they provide information about the Town's most important funds.

FINANCIAL HIGHLIGHTS

Due to this year's operations, the Town's net assets are as follows:

- Net assets of business-type activities were \$4,057,328 and net assets of governmental activities were \$6,185,567.
- The current year's expense total was \$3,403,704 as compared to the \$4,187,930 generated in fees and charges, grants, general revenues and taxes for governmental programs (before extraordinary items). In the previous year, expenses were \$3,794,378 as compared to the \$4,000,512 generated in tax and other revenues for governmental programs (before extraordinary items).
- For business-type activities, town revenues were \$2,350,727 and expenses were \$2,626,072.
- The annual cost of all town programs was \$6,029,776. The previous year's cost was \$6,343,172.

The Town's total Governmental Fund Balance at the end of the fiscal year totaled \$2,438,474, which is a \$148,691, or 6.5%, increase over the prior year's Fund Balance of \$2,289,783. Of this amount, \$1,487,320 is not designated or reserved for use.

THE TOWN AS A WHOLE ANALYSIS

Because the Statement of Net Assets and the Statement of Activities provide facts about the Town as a whole, the statements can help determine if a town's financial condition has improved or deteriorated as a result of the year's activities. All assets and liabilities are included in the statements using the accrual basis of accounting. The accrual method is comparable to the accounting used by most private corporations. All current year revenues and expenses are included. It does not matter when cash is paid or received.

These statements give an account of the Town's net assets and any changes in those assets. However, to truly judge the condition of the Town, some non-financial factors, such as diversification of the taxpayer base or condition of the Town's infrastructure, must be considered in addition to the financial information provided in this report.

The Statement of Net Assets and the Statement of Activities divide the Town into two types of activities:

1. **Governmental activities:** The Town's basic services are accounted for in this section, including the police, fire, public works, parks departments and general administration. Charges for services, property taxes, franchise fees, and state and federal grants finance the majority of these activities.
2. **Business-type activities:** Items included in this section are services for which the Town charges a fee to help cover all or most of the cost of the service it provides. The Town's water and sewer system operations are reported here.

DETAILING THE MOST IMPORTANT FUNDS

The fund financial statements cover detailed information about the most important funds of the Town. Certain funds are mandated by state law and by bond agreements. Other funds are established to manage money, meet legal requirements or for certain taxes or grants.

- **Governmental funds:** Basic services are reported in governmental funds. This section details how money flows in and out of the funds and covers the balances left at year-end that are on hand for disbursement. Governmental funds are reported using an accounting method called modified accrual accounting. This method measures cash and financial assets that can easily be converted to cash. The governmental fund statements supply a detailed short-range view of general government operations and basic service. Governmental fund data allows the Town to determine the financial resources that can be spent in the long-term to finance the Town's programs.
- **Proprietary funds:** Proprietary funds are those the Town charges for services it provides, both to town units and outside customers. Proprietary funds are reported in the Statement of Net Assets and the Statement of Activities. The Town's enterprise funds, a component of proprietary funds, are the same as the business-type activities we report in the government-wide statements, but they give more detailed information such as cash flow.

NOTES TO FINANCIAL STATEMENTS

The notes provide additional information that is necessary for a full understanding of the data provided in the accompanying financial statements.

OTHER INFORMATION

In addition to the financial statements and notes, this report contains supplementary information and details of the accompanying financial statements.

TOWN AS A WHOLE

TABLE 1 - NET ASSETS

	Governmental Activities		Business-Type Activities		Total Primary Government	
	<u>Current Year</u>	<u>Previous Year</u>	<u>Current Year</u>	<u>Previous Year</u>	<u>Current Year</u>	<u>Previous Year</u>

Total Liabilities	<u>1,387,489</u>	<u>1,264,978</u>	<u>5,559,480</u>	<u>5,921,706</u>	<u>6,946,969</u>	<u>7,186,684</u>
Net Assets						
Invested in Capital Assets, Net of Debt	3,760,375	3,176,336	3,202,870	2,974,933	6,963,245	6,151,269
Restricted	850,655	1,072,758	669,110	863,613	1,519,765	1,936,371
Unrestricted	<u>1,574,537</u>	<u>1,425,772</u>	<u>185,348</u>	<u>220,602</u>	<u>1,759,885</u>	<u>1,646,374</u>
Total Net Assets	<u>\$ 6,185,567</u>	<u>\$ 5,674,866</u>	<u>\$ 4,057,328</u>	<u>\$ 4,059,148</u>	<u>\$ 10,242,895</u>	<u>\$ 9,734,014</u>

The Town's combined net assets from the current year are \$10,242,895 as compared to \$9,734,014 in the previous year. However, net assets and expenses from governmental and business-type activities must be reviewed separately. Table 1 focuses on net assets and Table 2 focuses on changes in net assets of the Town's governmental and business-type activities.

The Town's net assets for governmental activities were \$6,185,567 as compared to \$5,674,866 last year. Unrestricted net assets were \$1,574,537 this year as compared to \$1,425,772 last year. Unrestricted net assets are those that can be used to finance daily operations without restrictions set by legislation, debt covenants, grant agreements or other legal regulations.

The net assets of the Town's business-type activities were \$4,057,328 this year as compared to \$4,059,148 last year.

Town revenues (excluding extraordinary items) for the current year were \$6,538,657 as compared to \$6,582,719 in the previous year. The total yearly cost of all programs and services was \$6,029,776 as compared to \$6,343,172 in the previous year. See Table 2 for additional information.

GOVERNMENTAL ACTIVITIES

This year's governmental activities revenues were \$4,187,930 as compared to \$4,000,512 last year. The year's governmental activities cost was \$3,403,704 as compared to \$3,794,378 in the previous year.

The Town did not increase the property tax millage rate from the 110 mills established in FY 2007-2008. The Town added wastewater pretreatment fees in July 2008. Effective January 2009, landfill fees were increased from \$6.30 to \$7.30 in response to an increase by York County. In June 2009, the Town approved an amended franchise agreement with Duke Energy which increased the fee from 4% to 5%. Also, in response to an increase by the City of Gastonia, the Town approved a 4% increase to water and sewer consumption rates to be effective January 1, 2010.

General Fund revenues were \$3,936,856 which exceeded the budget's projected revenue of \$3,770,400 by \$166,456. This overage is due in large part to actual property tax and business license revenues received.

General Fund expenses totaled \$3,357,615, which were \$30,585 lower than the budgeted amount of \$3,357,615.

Table 3 details the cost of the Town’s major programs as well as each program’s net cost (total cost less revenues generated by the program). The cost indicates the financial burden that was shifted to the Town’s taxpayers by each of these programs.

TABLE 3 - GOVERNMENTAL ACTIVITIES

	<u>Total Cost of Services</u>		<u>Net Cost of Services</u>	
	<u>Current Year</u>	<u>Previous Year</u>	<u>Current Year</u>	<u>Previous Year</u>
Police Department	\$ 1,353,211	\$ 1,325,614	\$ 1,256,740	\$ 1,314,981
Fire Department	143,452	141,065	44,958	42,005
Public Works	885,717	1,079,638	438,713	647,144
Parks & Recreation	600,555	834,022	173,719	222,657
All Others	420,769	414,039	(804,003)	(740,411)
Totals	\$ 3,403,704	\$ 3,794,378	\$ 1,110,127	\$ 1,486,376

BUSINESS – TYPE ACTIVITIES

This year’s business–type activities revenue (see Table 2) was \$2,350,727 as compared to \$2,582,207 last year which is \$231,480 less than the prior year’s. The decrease is a direct result of the recession which has impacted new home and subdivision construction (capacity fees). Also, in the prior year, the Town received two grants equaling \$252,000 combined.

This year’s expenses were \$2,626,072 as compared to \$2,548,794 in the previous year, an increase of \$77,278. A colder and wetter than normal winter increased power expenses at lift stations and sewer costs due to infiltration.

GENERAL FUND BUDGETARY STATEMENTS

The Town Council may review the budget during the year. The current year’s budget focuses on general funds, major funds and on availability of fund resources.

The Fiscal Year 2009-2010 budget was amended by the Town Council to reflect significant deviations including a shortfall in the Enterprise Fund that required a \$273,525 transfer in from the General Fund.

TOWN FUNDS

At year-end the Town reported a total governmental funds balance of \$2,438,474 as compared to \$2,289,783 in the previous year, an increase of \$148,691. These figures are primarily due to the increase in property tax and business license revenues as well as the inability to expend funds on projects prior to year-end (e.g. Irish Downs Phase 2 Subdivision bond).

CAPITAL ASSETS

TABLE 4 - CAPITAL ASSETS AT YEAR END
(Net of Depreciation)

	Governmental Activities		Business-Type Activities		Totals	
	Current Year	Previous Year	Current Year	Previous Year	Current Year	Previous Year
Land	\$ 1,056,767	\$ 1,056,767	\$ 41,831	\$ 41,831	\$ 1,098,598	\$ 1,098,598
Construction in Progress	238,137	-	85,791	1,561,395	323,928	1,561,395
Equipment and Buildings	3,095,501	2,824,665	623,690	617,854	3,719,191	3,442,519
Infrastructure	31,900	31,900	7,770,976	6,399,444	7,802,876	6,431,344
Totals	\$ 4,422,305	\$ 3,913,332	\$ 8,522,288	\$ 8,620,524	\$ 12,944,593	\$ 12,533,856

At the close of the year, the Town had invested a cumulative total of \$12,944,593 in capital assets such as land, buildings and improvements, equipment or infrastructure (see Table 4). \$12,533,856 was invested in similar assets last year. Table 4 shows the book value of cumulative investment of the capital assets.

The current year's capital asset additions include:

- Three replacement computers and Cemetery Management Software in Administration;
- Replacement truck for Animal Control;
- Extraction tools and two radios for Fire Department;
- Police Department obtained a new SUV, laptop computers and closed circuit television system through grants;
- Recreation Department acquired one replacement truck, two new mowers, and various other field maintenance equipment;
- Parking lot paved at Roosevelt Park, new storage building at Clover Community Park, and Community Building improvements and furniture;
- Streets and Sanitation acquired a new garbage truck, mower and street sweeper and replaced two street lights;
- Water/sewer arrow board and water line improvements in Walnut St/Valley Ave area using grant funds; and
- Manhole improvements on Main Street and sewer improvements on Highway 321 at Ridge Rd (both required because of SCDOT road improvements).

DEBT MANAGEMENT

TABLE 5 - OUTSTANDING DEBT AT YEAR END

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>		<u>Totals</u>	
	<u>Current Year</u>	<u>Previous Year</u>	<u>Current Year</u>	<u>Previous Year</u>	<u>Current Year</u>	<u>Previous Year</u>
General Obligation Bonds (backed by Town)	\$ 245,000	\$ 280,000	\$ -	\$ -	\$ 245,000	\$ 280,000
Revenue Bonds and Notes (backed by specific tax and fee revenues)	-	-	5,275,000	5,580,000	5,275,000	5,580,000
Capital Leases and Other Outstanding Obligations	416,930	456,996	44,418	65,591	461,348	522,587
Totals	\$ 661,930	\$ 736,996	\$ 5,319,418	\$ 5,645,591	\$ 5,981,348	\$ 6,382,587

At the close of the year, the Town had \$5,981,348 in outstanding bonds and capital leases as compared to \$6,382,587 in the previous year (see Table 5).

The Town's total debt decreased by \$401,239, or 6.3%, during the fiscal year ending June 30, 2010.

The South Carolina State Constitution limits the amount of general obligation debt a governmental entity may issue, without a referendum, to 8 percent of its total assessed valuation. Per York County Tax records, the total assessed value is \$15,366,101. Therefore, the current debt limitation for the Town is \$1,229,288. The Town's current debt is \$984,288 less than the limit allowed by law. The Town could issue additional general obligation debt up to this amount.

During FYE 2010, the Town entered into a lease purchase agreement with BB&T to finance the following replacement vehicles: animal control truck, recreation truck, recreation mower and dump truck. The amount of the agreement was \$112,000. During the year, the Town also completed the lease agreement with Ford Motor Company.

ECONOMIC ISSUES/UPCOMING YEARLY BUDGETS

Town public officials considered many issues when establishing the upcoming year's budget, tax rates, and fees. The Town's Fiscal Year 2010-2011 Budget General Fund revenues were projected to decrease from this year's amended budget by \$279,500, a decrease of 7.4%.

General Fund expenses were balanced with projected revenues. Several fund balance allocations were budgeted totaling \$490,550:

- \$89,500 - Irish Downs Phase 2 Sidewalk and Street Tree Construction with funding carried over from a subdivision bond received in FY 2009-2010.
- \$50,500 – Council approved expenses including needed equipment and vehicle upgrades.
- \$97,500 – Budget planning error where staff failed to include the York County Supplement transfer to Capital Projects. Because it was not the intent to use this much fund balance, expenditures on major and new programs was suspended until such time as current year revenues will be able to cover these expenses.
- \$275,050 – To balance the expected shortfall in the Enterprise Fund.

In the Enterprise Fund, revenues were projected to increase by \$191,375, or 8.3%. The increase is attributable to the 4% rate increase adopted by Town Council that went into effect January 1, 2010, and to an expected reimbursement grant from the SC Department of Commerce for the CLAX project.

Enterprise Fund Administration and Legislative expenses were moved to the General Fund. Staff analyzed the expenses and assigned a rational percentage for each shared expense. The Enterprise Fund will reimburse the General Fund in quarterly or semi-annual payments. The budget anticipates using \$480,000 of revenue bond funds but only \$152,000 in expenses has been identified (CDBG grant match). Revenue bond proceeds will likely be used to replace water and/or sewer lines in one or more road improvement areas.

The property tax millage rate was maintained at 110 mills. Council will likely be required to consider fee and rate adjustments to cover the costs of operating the Water/Sewer utility. There were no significant changes to any other existing fees. A Capital Improvements Plan was updated during FYE 2010 and was used to guide budget allocations for FYE 2011.

General obligation debt is currently under consideration. Using the Town's Hospitality Tax to secure revenue bonds is also being discussed as an additional way to help fund the new park on Memorial Drive.

CONTACT INFORMATION

This report had been created to give our citizens, taxpayers, customers, investors and creditors a summary of town finances and to show allocation of the money it receives. If you have any questions regarding this report, or you need additional financial information, please contact:

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Clover, South Carolina, conform to Generally Accepted Accounting Principles (*GAAP*) applicable to governments. The following is a summary of significant accounting policies:

Reporting Entity

The Town of Clover (the “Town”) was incorporated December 24, 1887, and operates pursuant to the provisions of the Home Rule Act, Act No. 283 of 1975, codified in Title 5 of the South Carolina Code, as amended. The Town operates under a council form of government and provides the following services as authorized by its charter: Public Safety – Police and Fire Protection, Streets, Sanitation, Parks and Recreation, Public Improvements, Planning and Zoning, and General Administrative Services.

The financial statements of the Town of Clover have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles. The Town’s reporting entity applies all relevant GASB pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) Statements and Interpretations and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

For financial reporting purposes, all potential component units are considered. As defined by GASB No. 14, component units are legally separate entities that are included in the Town’s reporting entity because of the significance of their operating or financial relationships with the Town. Generally accepted accounting principles establish several criteria for determining whether a potential component unit is included in the reporting entity. These criteria include the governing body’s ability to exercise oversight responsibility evidenced by financial interdependency, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. Also used in the determination is the existence of special financing relationships.

Entities excluded from the Town of Clover as a reporting entity are Clover School District Number Two, Clover Rescue Squad and Greater Clover Chamber of Commerce. These bodies have separate management and boards and provide services within the geographic area of the Town. The Town has no ability to exercise influence or control over their daily operations, budgets or funding.

The Clover Volunteer Fire Department provides fire protection and prevention services for the area. The Town Council assumed control of the Fire Department during the 1988-1989 fiscal year; therefore, Fire Department assets, liabilities, revenue and expenses are combined with the Town’s.

Basis of Presentation

The Town’s basic financial statements consist of government-wide financial statements that include a statement of net assets, a statement of activities and fund financial statements that provide a more detailed level of financial information.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the Town as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the Town that are governmental in nature, which normally are supported by taxes and intergovernmental revenues, and those that are considered business-type activities, which rely to a significant extent on fees and charges for support. The statement of net assets presents the financial condition of the governmental and business-type activities of the Town at year-end.

The statement of activities presents a comparison between direct expenses and program revenue for each program or function of the Town's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Town. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the Town.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the period earned; expenses are recognized when a liability is incurred. Property taxes are recognized as revenues in the year in which they are levied. Grants and intergovernmental revenues are recognized as revenue when the eligibility requirements imposed by the grantor or other government agency have been met.

Fund Financial Statements

During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Fund Accounting

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The Town has the following fund types:

Governmental Fund Types

Governmental funds are used to account for the Town's general government activities. Governmental fund types use the flow of current financial resources measurement focus and modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Town considers all

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

revenues available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for interest of general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, franchise fees, state shared revenues, grants, and other miscellaneous fees are susceptible to accrual. Property taxes and franchise fees are recognized as revenue in the fiscal year for which they are levied. Intergovernmental sources are recognized as revenue when the underlying eligibility requirements are met and the resources become available. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met. Other sources become measurable and available when cash is received by the Town and are recognized as revenue at that time.

Governmental funds include the following types:

General Fund

The *general fund* is the Town's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

Special Revenue Funds

Special revenue funds account for revenue sources that are legally restricted to expenditures for specific purposes (not including major capital projects).

Capital Projects Funds

Capital projects funds account for the construction or acquisition of major capital projects not being financed by proprietary funds.

Proprietary Fund Types

Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. These funds account for activities of the Town similar to those found in the private sector, where cost recovery and the determination of net income is useful or necessary for sound fiscal management.

Enterprise Funds

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income, is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The Town has one enterprise fund (Water and Sewer Department).

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue

Revenue - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Town, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the Town receives value without directly giving equal value in return, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the Town must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Town on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: delinquent taxes, grants, interest, fees and charges for services.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first and then unrestricted resources, as they are needed.

The Water and Sewer Department, a proprietary fund type, distinguishes between operating revenues and expenses and non-operating revenues and expenses. The principal operating revenues of the Water and Sewer Department are charges for water and sewer fees, taps and service connection/reconnection fees and penalties. Operating expenses consist of costs of services provided, administrative costs and depreciation of assets. All other revenues and expenses are classified as non-operating.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Business licenses received by the Town prior to June 30, 2010, that are for the 2011 fiscal year have been recorded as deferred revenue. On governmental fund financial statements, tax receivables that will not be collected within the available period have also been reported as deferred revenue.

Cash and Cash Equivalents

The Town considers all highly liquid investments including cash on hand, demand deposits and short-term investments in the South Carolina Pooled Investment Fund to be cash and cash equivalents. The Town's investment policy is designed to operate within existing statutes (which are identified for all funds and fund types) of the State of South Carolina.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Town's cash investment objectives are preservation of principal, liquidity and yield. The Town reports its investments at fair value normally determined by quoted market prices.

Cash and cash equivalents for purposes of the proprietary fund statement of cash flows includes cash and investments held in the South Carolina State Investment Pool.

Inventory

Inventory is valued at cost. Inventory consists of gasoline.

Capital Assets

The Town's fixed assets, or capital assets, are recorded at cost for the government-wide statements but are not capitalized in the Town's fund financial statements. Capital assets in the Water and Sewer Department are capitalized at cost in the proprietary fund statements. The cost of land is not depreciated. Depreciation is calculated principally on the straight-line method over the estimated useful lives of the respective assets. Amortization of assets recorded under capital lease obligations has been included with depreciation expense. Donated fixed assets are valued at their estimated fair value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Property records show, as appropriate, the description, identification number, serial number, manufacturer, date of purchase, initial cost, location of equipment, condition and depreciation of the item being recorded. Property records of equipment and real estate are updated annually and referenced to purchase orders, acquisition reports and withdrawal reports.

Major items of equipment are subject to annual spot check inventory to determine loss, misplacement or depreciation. Any loss is to be reported to the Town Council.

Each year prior to the closing of the fiscal year, the supervisor of each department is to arrange for an equipment inventory check in his/her area of responsibility. This inventory is kept on file in the department head's office and a copy submitted to the Treasurer.

The Town elected to implement the general provisions of GASB No. 34 in the 2004 fiscal year. Since the Town is a Phase 3 entity with reference to GASB No. 34 implementation, the Town reports infrastructure prospectively, and has no plans to retroactively report. Neither their historical cost nor related depreciation has historically been reported in the financial statements. GASB No. 34 requires the Town to report and depreciate new infrastructure assets acquired after fiscal year 2004. Infrastructure assets primarily include roads, bridges and underground pipe (other than related to utilities).

General fixed assets are depreciated over the following class lives:

Buildings	25-50
Building improvements	10-20
Infrastructure	20-50
Machinery and equipment	5-10
Furniture and fixtures	5-7
Vehicles	3-10
Firearms	7

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interest costs are capitalized when incurred by proprietary funds on debt where proceeds are used to finance the construction of assets. Interest earned on proceeds of tax-exempt borrowing arrangements restricted to the acquisition of qualifying assets is offset against interest costs to determine the amount to be capitalized.

Accrued Liabilities and Long-Term Debt

All payables, accrued liabilities and long-term obligations are reported in the government-wide basic financial statements. Bond premiums, discounts and issuance costs are deferred and amortized over the life of the bonds using the straight-line method (as it approximates the effective interest method), if material. Debt is reported net of applicable bond premiums and discounts.

In the governmental fund basic financial statements, bond premiums, discounts and bond issuance costs are recognized immediately. The face amount of debt or capital leases issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund basic financial statements regardless of whether they will be liquidated with current financial resources. However, claims and judgments, debt and capital leases, compensated absences, contractually required pension contributions, special termination benefits and other related long-term liabilities that will eventually be paid from governmental funds are not reported as a liability in the fund basic financial statements until due and payable.

Fund Equity

As reported on the fund financial statements, reserved funds represent tentative plans for future use of financial resources. Unreserved funds represent those portions of fund equity not appropriated for future expenditure or legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

Net Assets

Net assets represent the difference between assets and liabilities in the statement of net assets. Net assets are classified as invested in capital assets net of related debt, restricted and unrestricted. Net assets invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Outstanding debt that has not been spent is included in the same net assets component as the unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for expenditures are recorded to reflect the use of the applicable spending appropriations, is used by the general fund during the year to control expenditures. Encumbrances do not constitute expenditures or liabilities. For budget purposes, encumbrances and unused expenditure appropriations lapse at year-end.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements. In addition, they affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Financial Instruments

Financial instruments that potentially subject the Town to concentration of credit risk are trade receivables, interest-bearing investments and cash. Due to the large number and diversity of the Town's proprietary fund customer base, concentrations of credit risk with respect to receivables are limited. The Town places all of its cash and cash equivalents with high credit-quality financial institutions and requires such deposits to be collateralized and places all short-term investments with the South Carolina Investors Board.

Interfund Activity

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as internal balances in the statement of net assets or as "due from other funds" or "due to other funds" on balance sheets. Such activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets in the statement of net assets because their use is limited by applicable bond covenants.

Compensated Absences

Amounts of vested or accumulated annual leave that are not expected to be liquidated with current expendable financial resources are not recorded in the fund financial statements. No expenditure is reported for these amounts. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of these funds as the benefits are earned by the employees. The Town records no liability for nonvesting accumulating rights to receive sick pay benefits. In accordance with Government Accounting Standards, the entire liability for compensated absences is recorded and reported on the government-wide financial statements. Government fund financial statements recognize only current maturity of compensated absences. The non-current portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the Town's governmental fund balance and the government-wide statement of net assets and government-wide presentations.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 2 – DEPOSITS AND INVESTMENTS

All of the Town's deposits are either insured or collateralized by using one of two methods, the dedicated method or the pooling method. Under the dedicated method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the Town's agent in the Town's name. Under the pooling method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agent in the Town's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest bearing deposits. Depositories using the pooling method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Town under the pooling method, the potential exists for under collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer enforces strict standards of financial stability for each depository that collateralizes public deposits under the pooling method.

At June 30, 2010, the Town's deposits had a carrying amount of \$2,967,820 and a bank balance of \$2,608,542, which was entirely covered by federal depository insurance or collateralized. At June 30 2010, the Town had \$1,843 cash on hand.

As of June 30, 2010, the Town had the following investments and maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Less Than 3 Months</u>
S.C. State Investment Pool	\$ <u>494,605</u>	\$ <u>494,605</u>

Following are the components of the Town's book and fair values for cash and investments at June 30, 2010:

Governmental Fund Deposits

Cash in banks	\$ 2,247,207
S.C. State Investment Pool	295,388
Cash on hand	<u>1,272</u>
	<u>\$ 2,543,867</u>

Proprietary Fund Deposits

Cash in banks	\$ 718,770
S.C. State Investment Pool	199,217
Cash on hand/credit card receipts	<u>571</u>
	<u>\$ 918,558</u>

The Town's deposits in local banks are categorized to give an indication of the level of risk assumed by the Town at year-end. Category 1 includes deposits that are insured or for which securities are held by the Town or its agent in the Town's name. Category 2 includes uninsured deposits for which the securities are held by the financial institution's trust department or agent in the Town's name. Category 3 includes uninsured deposits for which the securities are held by the financial institution, its trust department or its agent, but not in the Town's name or deposits which exceed securities held in the Town's name.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

<u>Description</u>	<u>Category</u>			<u>Bank Balance</u>	<u>Collateral Market Value</u>
	<u>1</u>	<u>2</u>	<u>3</u>		
FDIC Insurance	\$ 750,000	\$ -	\$ -	\$ 750,000	\$ 750,000
Qualified Securities	-	2,819,441	-	2,819,441	2,819,441
	<u>\$ 750,000</u>	<u>\$2,819,441</u>	<u>\$ -</u>	<u>\$ 3,569,441</u>	<u>\$ 3,569,441</u>

Investments include funds with the South Carolina Local Government Investment Pool (the "Pool") which invests in U.S. Government Securities, Federal Agency Securities, Repurchase Agreements secured by U.S. Government Securities and/or Federal Agency Securities and A1/P1 Commercial Paper. The carrying amount and collateral market value were \$494,605. Of this amount, \$199,217 is maintained in the water and sewer fund as a depreciation and contingent fund.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are carried at fair value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than forced liquidation. Fair value for all investments of the Pool is determined annually based upon quoted market prices.

Section 11-9-660 of the State of South Carolina Code of Laws authorizes the Treasurer's Office to invest and reinvest the monies of the Pool in the following types of investments;

1. Obligations of the United States, its agencies, and instrumentalities;
2. Obligations of the State of South Carolina or any of its political subdivisions;
3. Obligations of any corporation within the United States if such obligations bear investment grade ratings of at least two nationally recognized rating services;
4. Certificates of deposit where the certificates are collaterally insured by securities of the type described in 1 and 2 above, held by a third party as escrow agent or custodian, and are of a fair value not less than the amount of their certificates of deposit so secured, including interest; and
5. Repurchase agreement when collateralized by securities of the type described in 1 and 2 above and held by a third party as escrow agent or custodian, of a fair value not less than the amount of the repurchase agreement so collateralized, including interest.
6. Guaranteed investment contracts issued by a domestic or foreign insurance company or other financial institution, whose long-term unsecured debt rating bears the two highest ratings of at least two nationally recognized rating services.

South Carolina Local Government Investment Pool financial statements are issued and may be obtained from the Senior Assistant State Treasurer, State of South Carolina, P.O. Box 11778, Columbia, South Carolina 29211; telephone (803) 734-2641; facsimile (803) 734-2697.

NOTE 3 – PROPERTY TAX

The Town has an agreement with York County to maintain property tax rolls and levy and collect property taxes. The taxes collected are remitted to the Town at the end of each month with the exception of December and January, for which remittance is made twice a month. The County charges per notice for collection. Taxes are levied on September 30 and payable on or before January 15, at which time a penalty is assessed on unpaid accounts. An additional penalty of 7% is assessed on February 1 and March 16. Liens attach to the property at the time the taxes are levied. Town property tax revenues are recognized when received with the exception of those which are received by the County within sixty days of year-end, which are recognized as revenue as of June 30. An allowance is established for delinquent taxes to the extent their collection is improbable.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 4 – DEFERRED REVENUE

Deferred revenue totaling \$363,401 in the general fund consists of property taxes receivable but not yet recognized as revenue totaling \$243,211, 2010 – 2011 business licenses of \$19,888 received by the Town prior to June 30, 2010 that are for the 2011 fiscal year, and \$100,302 for deferred judicial fees and fines deposited as the general fund administers the judicial funds.

NOTE 5 – CAPITAL ASSETS

A summary of capital assets accounted for in the governmental funds is as follows:

	<u>Balance July 1, 2009</u>	<u>Additions</u>	<u>Dispositions</u>	<u>Balance June 30, 2010</u>
Governmental Activities				
Non-depreciable capital assets:				
Land	\$ 1,056,767	\$ -	\$ -	\$ 1,056,767
Construction in progress	<u>-</u>	<u>238,137</u>	<u>-</u>	<u>238,137</u>
Total non-depreciable capital assets	<u>1,056,767</u>	<u>238,137</u>	<u>-</u>	<u>1,294,904</u>
Depreciable capital assets:				
General government	492,653	28,766	(486)	520,933

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 6 – LONG-TERM DEBT (CONTINUED)

The Town leases certain property and equipment under capital leases. The net book value of capital leases recorded in the governmental activities capital assets consists of the following at June 30, 2010:

Governmental Funds	
Police	\$ 139,035
Recreation	43,800
Streets	497,177
Development	24,000
Less accumulated amortization	(<u>165,269</u>)
	<u>\$ 538,743</u>
Proprietary Fund	
Equipment and vehicles	\$ 137,630
Less accumulated amortization	(<u>44,511</u>)
	<u>\$ 93,119</u>

The following is a schedule of future lease payments under these capital leases at June 30, 2010:

<u>Year Ending June 30,</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
2011	\$ 161,089	\$ 23,683
2012	161,483	23,293
2013	98,800	-
2014	<u>24,100</u>	<u>-</u>
Total lease payments	445,472	46,976
Less amount representing interest	(<u>28,542</u>)	(<u>2,558</u>)
Present value of future lease payments	<u>\$ 416,930</u>	<u>\$ 44,418</u>

Total interest costs for the year ended June 30, 2010 were \$19,462.

On September 10, 2007, the Council adopted an ordinance to provide for the issuance and sale of \$315,000 General Obligation Bonds, Series 2007, for the purchase of approximately 21 acres of land for the future expansion of the parks and recreational programs and facilities of the Town. A principal payment of \$35,000 is due on September 10 of each year, beginning September 10, 2009, and continuing through September 10, 2016. The bonds are payable from a direct ad valorem tax on all taxable property in the Town.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 6 – LONG-TERM DEBT (CONTINUED)

On October 29, 2007, the Council adopted an ordinance providing for the issuance and sale of Series 2007 Waterworks and Sewer System Improvement and Refunding Revenue Bond (the "Series 2007 Bond") in an amount of \$5,850,000. The ordinance provides for the cost of certain improvements and for the advance refunding and defeasance of Series 1999 revenue bonds. The Series 2007 Bond is dated October 30, 2009 and bears a single interest rate of 3.99% per annum with interest payable semi-annually and principal payable annually through December 1, 2022. All gross revenues of the System are pledged as security for the Series 2007 Bond.

In accordance with the Series 2007 Bond Agreement, the Town will continuously prescribe, maintain and collect rates and charges for the services and facilities furnished by the Waterworks and Sewer System which, together with other income, will yield "annual net earnings" from its water and sewer fund in the current fiscal year equal to at least one hundred twenty percent (120%) of the annual principal and interest requirements in such fiscal year for all bonds outstanding. As of June 30, 2010, the Town's "annual net earnings" from its water and sewer fund were below the threshold required by the foregoing terms. The Town was granted a waiver from the rate covenant requirement for the fiscal year ended June 30, 2010.

As of June 30, 2010, interest expense of \$72,596 has been capitalized and included in capital assets of business-type activities.

The annual debt service requirements to maturity for the Series 2007 Bond as of June 30, 2010 are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>
2011	\$ 315,000	\$ 210,473
2012	330,000	197,904
2013	345,000	184,737
2014	355,000	170,972
2015	375,000	156,807
2016-2020	2,085,000	549,429
2021-2023	<u>1,470,000</u>	<u>89,666</u>
	<u>\$ 5,275,000</u>	<u>\$ 1,559,988</u>

NOTE 7 – COMPENSATED ABSENCES

The Town allows employees to have up to fifteen vacation days per year depending on years of service with the Town. Employees may carry forward nine workweeks of unused leave from one calendar year to the next. Upon separation from employment, all accrued annual leave is paid to the former employee. The Town also allows regular full-time employees sick leave days. Sick leave accrues at the rate of one day per month and a maximum of ninety days of unused sick leave per calendar year may be carried forward. Unused sick leave is not payable upon termination.

The liability for compensated absences related to the enterprise fund totaled \$68,492 at June 30, 2010 and \$57,091 at June 30, 2009. The portion of general fund liability expected to be paid from current resources is recorded in the general fund and totaled \$37,792 and \$52,673 at June 30, 2010 and June 30, 2009, respectively. The portion expected to be paid from non-current resources is reported as a non-current liability on the government-wide statement of net assets and was \$40,582 and \$38,075 at June 30, 2010 and June 30, 2009, respectively.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 8 – INTERFUND TRANSACTIONS

Individual interfund receivable and payable balances at June 30, 2010 are as follows:

Fund	Interfund Receivables	Interfund Payables
General fund	\$ 166,295	\$ -
Enterprise fund	-	166,295
	\$ 166,295	\$ 166,295

Governmental funds interfund receivables and payables represent lending/borrowing arrangements resulting from the timing of expenditures versus the receipt of revenues.

Internal balances are eliminated in the government-wide statement of net assets. Amounts billed by the water and sewer fund to the general fund for water and sewer services for the years ended June 30, 2010 and 2009 totaled \$16,927 and \$11,495, respectively, and are included in utilities expense for the various departments of the general fund and in water and sewer revenue in the water and sewer fund.

The Town made the following interfund transfers during the current year:

\$273,525 transferred from general fund to proprietary fund. The transfer was made to cover a shortfall in the water and sewer fund.

\$75,000 transferred from hospitality fund and \$249,746 from general fund to capital projects fund to be used for engineering, construction and expansion of the Clover Community Park.

NOTE 9 – PENSION PLANS

Substantially all Town employees are members of the South Carolina Retirement System (SCRS) Class II or the Police Officers Retirement System (PORS) Class II. These systems are cost sharing, multiple-employer pension systems. The administration of the SCRS is vested in the State Budget and Control Board.

A brief summary of benefit provisions, eligibility criteria and vesting is presented below:

Membership

- SCRS Generally all employees are required to participate in and contribute to the System as a condition of employment.
- PORS Generally all full-time employees whose principle duties are the preservation of public order and the protection or prevention and control of property destruction by fire are required to participate in and contribute to the System as a condition of employment.

Pension Benefits

- SCRS Monthly pension is payable at age sixty-five with a minimum five years service, or for twenty-eight years service. Reduced pension benefits (early retirement) are payable after five years of earned service and age sixty. Benefits are permanently reduced five percent for each year of age less than sixty-five, or age fifty-five or older with twenty-five years or more of service credit, five years of which must be earned service. Benefits are permanently reduced four percent for each year of service credit less than twenty-eight years.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2010

NOTE 9 – PENSION PLANS (CONTINUED)

PORS Monthly pension is payable at age fifty-five with a minimum five years service or twenty-five years credited service regardless of age. Member is vested for a deferred annuity with five years service.

The Town and the employees are required to contribute to the retirement systems under authority of Title 9 of the SC Code of Laws. For the 2009-2010 year, the Town contributed at a rate of 9.24% of wages, and the employees contributed at a rate of 6.5% of wages for those participating in the SCRS; for the PORS the Town contributed at a rate of 10.65% of wages and the employees at a rate of 6.5%. The Town pays 0.15% of earnable compensation under the SCRS and 0.20% of earnable compensation under PORS to provide group life insurance to retired members. The Town does not participate in the accidental death program under the PORS. Generally, all employees are required to participate and contribute unless they are part-time employees who have the option to participate if they choose to do so.

Total Town and member contributions were as follows:

<u>Year Ending June 30,</u>	<u>Employer SCRS</u>	<u>Employer PORS</u>	<u>Employee SCRS</u>	<u>Employee PORS</u>
2010	97,359	65,577	68,489	40,024
2009	93,269	67,345	65,611	41,103
2008	84,810	60,846	60,075	37,911

The Town's wage expense for the year 2009-2010 totaled \$1,603,880. Wages for employees participating in the SCRS were \$1,051,673, while wages for those participating in the PORS totaled \$552,207.

Both systems offer retirement and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance and survivor benefits. Members' accounts for both systems are vested after five years of service payable in the form of annuities beginning after age sixty for SCRS and age fifty-five for PORS. Contribution rates are determined through actuarial calculations.

The pension benefit obligation, which is the actuarial present value of credited projected benefits for all employees of all employers participating in the Plan, is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and any step-rate benefits estimated to be payable in the future as a result of employee service to date.

The formula for normal service retirement Class I SCRS members is 1.45% of average final compensation times years of credited service. For Class II PORS, it is 10.97% per month for each year of service.

The formula for normal service retirement Class II SCRS members is 1.82% of average final compensation times years of credited service. For Class II PORS, it is 2.14% of average final compensation times years of credited service.

Requirements for disability retirement under both SCRS and PORS are five years of service unless an injury is job related. The disability retirement benefit for SCRS members is based on a projection of service to age sixty-five with an actuarial reduction. For PORS members, the disability retirement benefit is based on a projection of service to age fifty-five.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 9 – PENSION PLANS (CONTINUED)

Benefit options under both SCRS and PORS are:

- Option A: (Maximum/retiree only) Formula benefit as calculated above. Non-recovered contribution paid upon death.
- Option B: (100%/100% joint retiree/survivor) Provides a reduced from option A lifetime benefit that upon retiree's death will continue to retiree's beneficiary.
- Option C: (100%/50% joint retiree/survivor) Provides a reduced from option A lifetime benefit that upon retiree's death will continue to retiree's beneficiary at 50% of the retiree's annuity.

Death benefits for SCRS and PORS members are as follows:

Lump sum payment equal to one year's salary payable to the beneficiary upon death of an active member with at least one year of service.

No service requirements for death resulting from actual performance of duties for an active member.

Lump-sum payment to retiree's beneficiary of up to \$6,000 based on years of service at retirement.

Withdrawal of employee contributions: Accumulated contributions, plus interest, payable 90 days after termination of all covered employment.

Actuarial valuation method: Projected benefit with level percentage entry age normal cost and open-end unfunded actuarial accrued liability.

Accrual interest rate assumption: 8% per annum compounded annually.

The total unfunded accrued liability for the entire South Carolina Retirement System at July 1, 2009 was \$11,967 millions. The total unfunded accrued liability for the entire Police Officers' Retirement System at July 1, 2009 was \$1,082 millions. Obligations for individual employers, such as the Town, are not available. Unfunded accrued liability period as of July 1, 2009 (latest figures available) for SCRS is 30 years and for PORS 30 years.

The South Carolina Retirement System issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the SCRS and PORS, which is publicly available on their website at www.retirement.sc.gov, or a copy may be obtained by submitting a request to the South Carolina Retirement System, P.O. Box 11960, Columbia, SC 29211-1960.

NOTE 10 – LITIGATION

The Town attorney indicates that the Town is a defendant in two lawsuits, claims or assessments as of June 30, 2010. The outcome of these cases is uncertain but it is believed that any judgment against the Town would not have a material effect on the Town. Additionally, the State Insurance Reserve continues to be available for the defense of these cases.

NOTE 11 – DONATIONS

The Town Council budgeted and paid \$10,000 to the York County Council on Aging, Inc. for the support of programs for the senior citizens of Clover.

The Town Council budgeted and donated \$2,500 to the Clover Chamber of Commerce for the Christmas Parade and other Chamber events.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 12 – COMMITMENTS

In April 1994, the Governor's Office of Energy Programs awarded a grant for a curbside recycling project to the City of York. Under the terms of the grant application, \$82,200 was to be used to purchase curbside containers and a recycling vehicle to be housed and maintained by the City of York. The Town of Clover reimburses the City of York for 40% of the truck's operating expenses. The Town of Clover is also responsible for reimbursing 40% of salary and related employee costs, as well as 40% of supply, printing, postage, and recycling costs to the City of York. The recycling program began in November 1995. Recycling costs for the years ended June 30, 2010 and 2009 were \$23,351 and \$18,437, respectively.

On June 18, 1996, the Town of Clover entered into an agreement with the City of Gastonia, North Carolina, for the purchase of water for a period of twenty five years from the date which water was first delivered to the Town in August 1997. Gastonia agreed to install a water line along US 321 to the South Carolina line with the Town of Clover providing lines and required meters from the South Carolina line. The Town is billed on a monthly basis for all metered water furnished to the Town by Gastonia at a rate equal to that charged users inside the City of Gastonia. The rate is subject to a discounted volume allowance, the terms of which are detailed in the agreement; however, the water loss engineering report required to be provided to the City of Gastonia to obtain such allowance has not been prepared. The agreement mandates usage limit at 10,400,000 gallons per calendar month with the initial maximum monthly limit at 18,912,000.

On November 4, 1996, the Town of Clover and the City of Gastonia, North Carolina, entered into an agreement for the City of Gastonia to provide wastewater treatment services to the Town of Clover. The twenty-five year agreement became effective on the first date that Gastonia provided wastewater treatment service to the Town in December 1997. The City of Gastonia provided a sewer line to the South Carolina line while the Town of Clover was responsible for a measuring device at the state line, vault and appurtenant structures and the necessary sewer line from the measuring point at the state line. The rates charged are to be equal to those of users inside Gastonia city limits. There is a minimum monthly charge for 9,000,000 gallons of wastewater flow per month while the initial maximum monthly flow to which the aforementioned rate applies is 18,620,000 gallons.

NOTE 13 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft, damage and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town pays premiums from both the general fund and the water and sewer fund to the South Carolina Insurance Reserve Fund for tort and property insurance coverage. Employees' bond coverage is purchased through a commercial agency. Workers' compensation coverage was maintained through payments to the South Carolina State Accident Fund until December 31, 2000. Afterwards payments were made to the South Carolina Municipal Trust Fund. Coverage is reviewed by management for completeness and adequacy. Claims are filed with the appropriate agency and coverage deductible amounts are paid by the Town.

NOTE 14 – GRANTS

The Town participates in a number of federal and state assisted grant programs. Funds received from federal and state grants and programs are often subject to expenditure for designated purposes only and are subject to audit by various federal and state agencies. The Town can be required to replace any funds not used for the purposes of the grants.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 15 – ARBITRAGE REBATE LIABILITY

The Internal Revenue Code of 1986 requires that most tax-exempt bond issues rebate any arbitrage profits to the United States Government. Sections 103 and 148 of the Internal Revenue Code pertain to Arbitrage Rebate. These laws stipulate that any earnings over the declared yield of tax-exempt issue must be rebated to the Federal Government. These excess earnings are defined as “arbitrage.” The calculation needed to determine the amount, if any, that must be rebated must be performed at least every five years over the life of the issue, even if the issue does not earn arbitrage. Failure to comply with the rebate requirement may result in the retroactive loss of the tax-exempt status of the bonds, as well as further financial penalties for the issuer and the obligated party.

NOTE 16 – SUBSEQUENT EVENTS

These financial statements considered subsequent events through November 5, 2010, the date the financial statements were issued.

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO BUDGETARY COMPARISON SCHEDULES
JUNE 30, 2010

BUDGET POLICIES

The Town of Clover adopts an annual operating budget for the general fund and the enterprise fund. The enterprise fund (water and sewer fund) is reported as other supplementary information. Prior to July 1 of each fiscal year, the Town Administrator submits to the Town Council a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.

Public hearings are then conducted to obtain taxpayer comments. The budget is legally enacted through passage of an ordinance. The Town Administrator is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures/expenses of any fund must be approved by the Town Council. The budget for the general fund is prepared in accordance with the basis of accounting utilized by that fund. The budget for the enterprise fund is prepared on a basis consistent with GAAP. Budgeted amounts are as originally adopted or as amended by the Town Council.

The Town does not budget for the special revenue funds.

BUDGET BASIS TO GAAP BASIS RECONCILIATION

Even though the general fund budget was not prepared with the intention of being on a GAAP basis, no adjustments are necessary to bring the budget into conformity with GAAP except principal payments on debt service.

ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is not employed in the governmental funds.

TOWN OF CLOVER, SOUTH CAROLINA
ENTERPRISE FUND - ANNUAL NET EARNINGS
 For the Year Ended June 30, 2010

CHANGES IN NET ASSETS OF WATER AND SEWER FUND (EXHIBIT 8)	\$	(1,820)
ADJUSTMENTS		
Depreciation		408,343
Interest paid on bonds		142,947
Transfers in from general fund		(273,525)
Government grants expenses		(788)
Amortization		<u>12,203</u>
ANNUAL NET EARNINGS (As defined in Section 2.02 of Series 2007 Bond Agreement)	\$	<u>287,360</u>
120% of Annual Principal and Interest Requirement	\$	<u>625,869</u>

In accordance with the Series 2007 Bond Agreement, the Town will prescribe, maintain and collect rates and charges for the services and facilities furnished by the Waterworks and Sewer System which, together with other income, will yield "annual net earnings" from its water and sewer fund in the current fiscal year equal to at least one hundred twenty percent (120%) of the annual principal and interest requirements in such fiscal year for all bonds outstanding. As of June 30, 2010, the Town's "annual net earnings" from its water and sewer fund were below the threshold required by the foregoing terms. The Town was granted a waiver from the rate covenant requirement for the fiscal year ended June 30, 2010.

See the accompanying Notes to Other Supplementary Information.

TOWN OF CLOVER, SOUTH CAROLINA
WATER AND SEWER SYSTEM CUSTOMER INFORMATION

* Note: Customer to furnish meter pit built to the Town's specifications.

** Note: Meter and installation costs reflect DHEC requirements and cost incurred at time of installation.

See the accompanying Notes to Other Supplementary Information.

TOWN OF CLOVER, SOUTH CAROLINA
WATER AND SEWER RATES
For the Year Ended June 30, 2010

SCHEDULE B-7
(Continued)

OTHER FEES

- \$ 75 Service connection fee on all water customers.
- \$ 75 Deposit for connection of water and sewer (subject to reduction to \$30 for customers who meet certain credit requirements).
- \$ 30 Water reconnection fee.
- \$ 50 Additional charge when water is reactivated by the customer or any other parties, before the past due bill and the reconnect fee have been paid.

SPECIAL RATES

The Council may negotiate special water and/or sewer rates for any customer classification that makes a significant capital contribution to the System.

See the accompanying Notes to Other Supplementary Information.

TOWN OF CLOVER, SOUTH CAROLINA
HOSPITALITY FUND
 For the Year Ended June 30, 2010

Effective January 1, 2007, the Town of Clover implemented a 2% Local Hospitality Tax applied to the total amount of the charge for prepared or modified foods and beverages intended for immediate consumption and sold within the municipal limits of the Town of Clover.

Hospitality Tax expenditures are restricted by State law. Tax proceeds can fund:

- (1) Tourism-related buildings including, but not limited to, civic centers, coliseums, and aquariums;
- (2) Tourism-related cultural, recreational, or historic facilities;
- (3) Beach access and renourishment;
- (4) Highways, roads, streets, and bridges providing access to tourist destinations;
- (5) Advertisements and promotions related to tourism development; or
- (6) Water and sewer infrastructure to serve tourism-related demand.

State law also allows an amount up to fifty (50%) percent of the prior year's hospitality tax collections to be used during the current year for operation and maintenance of those items listed above including police, fire protection, emergency medical services, and emergency-preparedness operations directly attendant to those facilities.

A summary of historic Hospitality revenue and expenditures is as follows:

<u>Fiscal year ended</u>	<u>June 30, 2010</u>	<u>June 30, 2009</u>	<u>June 30, 2008</u>	<u>Cummulative to date</u>
Total revenue	\$ 147,273	\$ 147,929	\$ 206,999	\$ 502,201

TOWN OF CLOVER, SOUTH CAROLINA
NOTES TO OTHER SUPPLEMENTARY INFORMATION
JUNE 30, 2010

COMPARATIVE DATA

Comparative totals for the prior year have been presented in the accompanying supplemental financial statements in order to provide an understanding of changes in the Town's financial position and operations. However, prior year totals by fund type have not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read. Certain amounts from the prior year have been reclassified to conform to current presentation.

**AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable Mayor and
Members of the Town Council
The Town of Clover
Clover, South Carolina

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Clover, South Carolina, as of and for the year ended June 30, 2010, which collectively comprise the Town of Clover, South Carolina's basic financial statements and have issued our report thereon dated November 5, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Clover, South Carolina's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Clover, South Carolina's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of Clover, South Carolina's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies in internal control over financial reporting [2007-1, 2007-2]. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Clover, South Carolina's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses [2007-1, 2007-2].

The Town of Clover, South Carolina's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the Town of Clover, South Carolina's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, Town Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Faulkner and Thompson, P.A.

November 5, 2010

TOWN OF CLOVER, SOUTH CAROLINA
SCHEDULE OF FINDINGS AND RESPONSES
JUNE 30, 2010

2007-01 Segregation of Duties

- Criteria: Internal controls are designed to safeguard assets and help prevent losses from employee dishonesty or error. A fundamental concept in a good system of internal control is the segregation of duties.
- The Town's internal control structure consists of policies and procedures established by management to provide reasonable but not absolute assurance that financial data is recorded, processed, summarized and reported consistent with the assertions embodied in the financial statement. In establishing those policies and procedures, management assesses their expected benefits and related costs. Because of the inherent limitations in any internal control structure, errors or irregularities may never less occur and not be detected. Also, projection of any assessment of the internal control structure to future periods is subject to the risk that policies or procedures may become inadequate because of the changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.
- Condition: Weaknesses were noted in the area of segregation of duties as it relates to accounting controls over cash and investments, accounts payable, payroll and journal entries.
- Recommendation: We understand the limitations of staff and financial resources in a small organization and that such limitations restrain the level of segregation in internal controls. However, we recommend periodic reviews and assessments of internal controls particularly related to cash, investments, cash receipts, purchasing and payroll, to ensure segregation of duties are maximized. We believe the segregation of these accounting duties will add to the integrity of the Town's internal controls and improve the Town's financial reporting system.
- Current Status: At the present time, there are too few administrative employees to implement most of the above-described recommended accounting controls. Town management provides oversight and budgetary review (budget to actual) on a consistent basis. Such reviews are intended to discern errors. Management will continue to strive for improved internal controls and will take the recommendations under advisement.

TOWN OF CLOVER, SOUTH CAROLINA
SCHEDULE OF FINDINGS AND RESPONSES
JUNE 30, 2010

2007-02 Integration of Accounting Software

- Criteria: Manual entries require additional procedures and can reduce the effectiveness of internal controls.
- Condition: During our audit we noted the Town's accounting software for the Enterprise Fund (Water and Sewer Fund) is not integrated with the Town's general accounting software. This is also the case for the accounting software related to building and business permits. As a separate system, entries must be made manually to record this activity on the Town's general ledger.
- Recommendation: We recommend the Town consider evaluating its current accounting software and consider an upgrade to its data processing capabilities so that all accounting modules are interfaced. Such integration should reduce the need for manually recording accounting data while strengthening internal controls.
- Current Status: At one time, the Enterprise Fund accounting software was integrated with the Town's general accounting software. However, there were many errors because of the limited capability of the software systems. The Town integrated business license and business permit software during July 2009. The Request for Proposals included a requirement to provide information on the additional integrated modules that would be available should the Town decide to replace the existing financial software. It is management's goal to have a fully integrated financial software package within the next five years provided funding is available.

2008-1 Accounting Policy Manual

- Criteria: Sound internal controls require effective and efficient accounting policies and procedures. The components of internal controls should be adequately documented.
- Condition: The Town has set policies and procedures for its accounting functions. However, during our audit, we noted the procedures have not been documented in a policy and procedures manual.
- Recommendation: We recommend the Town develop a written accounting policy and procedures manual. Such a manual could include procedures developed for each job description and reduce to writing procedures currently performed by each employee. By reducing all procedures to writing, the training of new employees may be improved and the organization of duties could be reviewed to maximize the segregation of duties.
- Current Status: A written accounting policy and procedures manual would be an excellent addition to other policies and procedures manuals. It would also assist, as noted above, with training new employees. Management will continue working on a manual with an anticipated completion date of December 2010.
