## HURRICANE SEASON!

June 1st is the beginning of Hurricane Season. Knowing what to do before, during and after an emergency is essential to your safety and property protection. Making a plan for your family and home will help protect you and those you love. Communicating the plan is important too. Building a disaster supplies kit will put you a step ahead and in a better position to manage an emergency. Be sure to pack water, food, blankets, flashlights, medications and other necessities, checking often to ensure expiration dates are current. Be Prepared! Make a Plan!
