

# TOWN OF CLOVER

---

## Parks and Recreation

Hello Coaches,

First and foremost, we hope that you and your loved ones are safe and healthy. We also thank you for signing your child(ren) up for sports with Clover Parks and Recreation. We have received questions from the community about how we will handle any Covid-19 cases this season. We know this outbreak continues to be stressful to many and recognize that exercising and participating in activities like sports can be a healthy way to cope with stress and connect with our community. We must all do our part to help reduce the possible spread of COVID-19. This starts with daily symptom checks for your participant and everyone in your household. Possible symptoms of COVID-19 include the following: fever, cough or shortness of breath, fatigue, body aches, loss of taste or smell, sore throat, congestion /runny nose, nausea, vomiting, and diarrhea. If anyone in the household is experiencing any symptoms, please refrain from attending practices or games.

In the unfortunate event, a coach or player on a team test positive for the COVID-19/ Coronavirus, and the team has had any type of gathering within 48 hours of that positive test Clover Parks & Recreation will suspend that team's activities.

Players and/or coaches will be allowed to return to activities on Day 11 after exposure with no test required OR, on Day 7 with a negative test *after* Day 5.

We will try to make up any games missed but with the timing of the season and various factors that are different for each sport, we cannot guarantee that we will. A deadline for regular -season games to be over may be established if we have multiple postponements. This decision may be communicated at a later date.

We must get used to a few extra steps to stay as safe as possible and to be able to have a Fall Sports season. We thank you for your patience and understanding. If you have any questions, please call us at 803-222-9493.
